## DMX-switchable socket

The device is characterized by very small dimensions, making it ideal for retrofitting suitable. The mains-input clamps are duplicated, and therefore several outlets can be looped through. The used relay is oversized with 50A. The contact material is suited for halogen- and capacitive loads. The supply of electronics is generated from the mains, so the connections of the socket are limited to line voltage 230V and DMX512.

<b>Type</b>	built in type
<b>Settings</b>	<ul style="list-style-type: none"><li>• DMX-address</li><li>• threshold</li></ul>
<b>DMX-input</b>	screw terminal up to 1 mm <sup>2</sup>
<b>Power supply</b>	230V / 16A screw terminal: <ul style="list-style-type: none"><li>• flexible up to 2,5 mm<sup>2</sup></li><li>• solid up to 4 mm<sup>2</sup></li></ul>
<b>Indicator LEDs</b>	<ul style="list-style-type: none"><li>• Switching status on the front page</li><li>• Operating conditions on the back</li></ul>
<b>RoHS-conform</b>	yes
<b>Dimensions</b>	W x D x H 55 x 60 x 100mm
<b>Weight</b>	0,3 kg
<b>Order number</b>	5061
