

LSS

Artlight

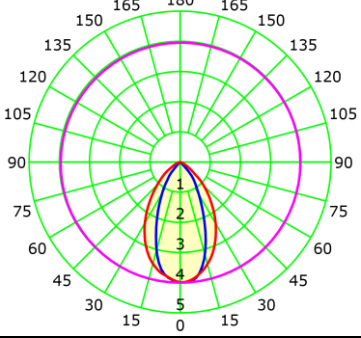

Battery-operated blue/white light luminaire with magnetic attachment

The LSS Artlight is a battery-operated white and/or blue light luminaire. It can be positioned anywhere with a magnetic attachment or an eyelet using a nail or a wall hook. The LSS Artlight can be secured against theft with a Kensington Lock (not included).

Thanks to the battery power supply, the LSS Artlight can be used in buildings and outdoors, regardless of the power grid. A necessary battery change is indicated by the LEDs. A toggle switch can be used to switch between blue and white light.

The LSS Artlight is equipped with long-life LEDs. The black powder-coated sheet steel housing offers optimal protection and handy use.

Technical specifications

Blue LED	Number of LED: 4	
	Wavelength: 465 – 470 nm	
	Luminous flux: 4,6 lm	
	Beam angle: ca. 35° x 80°	
	Stock, other LED / colors available on request.	
White LED	Number of LED: 4	
	Luminous flux: 5 lm	
	Color temperature: 5000 K	
	Stock, other LED / colors available on request.	
Power supply	4x R6 (AA) battery 1,5 V or accumulator 1,2 V	
IP Code / Appliance classes	IP30 / Class III	
Housing	1.5 mm aluminum sheet / RAL9005 black powder-coated
